WHAT: Professional Network Connections - Unveils Career Transition Assistance Program

Professional Network Connections (PNC) is proud to announce their Career Transition Assistance Program. "It's just another way of giving back to the business community" states CEO & Founder Debbie Griffith Brown.

Networking is the number one way of finding a job. At least 60% - some report higher statistics – of all jobs are found by networking. Now each of our PNC Networks can adopt up to two individuals who are in career transition. Career Transition members receive their membership free of charge, their resume will be posted on our website, they will have access to open meetings and events, as well as the ability to network to get greater exposure.

Of course some restrictions apply. The candidate must be from a position in an industry where networking was required to increase revenue. And they must be an active part of the Network that adopts them.

Our entire Admin Team has volunteered their time to process these applications and put their resumes up on our website for others to find these folks. We receive phone calls and emails daily from people that have been laid off and/or closed their businesses.

Professional Network Connections was founded by Debbie Griffith Brown in 2004 and offers a new approach to the traditional networking/leads referral organization by inter-connecting members to other members from other Networks. The organization currently has Networks in Florida, Georgia, South Carolina, North Carolina & Delaware. PNC is expanding to Maryland, Texas, Virginia, Pennsylvania & Ohio over the next 90 days.

Professional Network Connections offers its members networking, leads and referrals, business education, business relationship building, unique marketing tools and events. Professional Network Connections offers 17 different types of Networks including Business, Women's, Artisan's, Residential & Commercial Services, Hospitality & Entertainment, Medical, Automotive, Christian, CEO & International; just to name a few.

Each Network adopts a New Business Mentor-Protégé Member to its Network. This is their way of giving back to the business community. This program gives first-time business owners, whose business is less than one year old, a great approach for solving business questions and problems. Each Network's members act as this person's silent Board of Directors whom the Protégé can turn to for advice and help.

For additional information about PNC, please call 864-990-3273, email debbie@pnconnections.org, or visit www.pnconnections.org.
